Hiring Manager

Cambridge Consultants

United Kingdom

Dear Hiring Manager,

I am writing to express my keen interest in Software Engineering Internship at Cambridge Consultants as advertised. As an ambitious Computing undergraduate at University of Greenwich, with a focus on Software Development, I am eager to apply my academic knowledge and practical skills in a meaningful and impactful setting.

My academic journey has been punctuated by excellence in modules pertinent to your division's focus, including Web Programming, Application Development, and Advanced Web Programming. These, combined with my proficiency in Software Development and Problem-solving, position me well to contribute effectively to the cutting-edge work at your company. My background, having built some softwares have imbued me with a deep-seated motivation to pursue a career where I can make a tangible difference in the IT field.

In previous roles, including IT Analyst at University of Greenwich and Vice-President (women in STEM society) at University of Greenwich student union, I have honed vital skills in teamwork, communication, and adaptability, all of which are crucial in a fast-paced, collaborative laboratory environment. These experiences have taught me the importance of precision, efficiency, and empathy - qualities I am eager to bring to your company.

What excites me most about this role is the opportunity to immerse myself in software development and contribute to generating new ideas and to refine not only my technical skills but also to develop key professional competencies such as critical thinking, problem-solving, and collaborative teamwork. I am particularly drawn to the multidisciplinary approach of Cambridge Consultants, believing that my diverse academic achievements and work experiences equip me with a unique perspective and skill set. I am enthusiastic about the possibility of contributing to your team and am confident that my background and ambitions align closely with the goals of your company.

I acknowledge that there are likely many candidates with more extensive experience than myself; however, I am confident that my unique set of qualities, such as a positive attitude, teamwork skills, and extroverted nature, distinguish me from other applicants.

I am aware that my application is being submitted later than preferred, but I sincerely appreciate your consideration. I am eager for the opportunity to discuss how I can contribute to the IT department. I am available for an interview at your earliest convenience and can be reached at 07575594360 or via email at hk0235z@gre.ac.uk.

Yours sincerely,

Harshpreet Kaur
